

NEW ITEMS FOR HARLEY DAVIDSON

CP# 18466 H-D Directional Flasher Solid State

This Directional and Hazard light flasher is a "solid state design". It has come to our attention that many riders will add extra lights or change bulbs to LED style, a solid state design flasher will flash constant and consistent no matter if the circuit has 1 or 100 bulbs. This is an excellent upgrade on any vehicle.

Replaces OEM # 68543-64C

Call your cycle pro team member for pricing.

In stock for immediate delivery and continues short lead time for future orders.
